European Energy Poverty: Agenda Co-Creation and Knowledge Innovation (ENGAGER 2017-2021)

How can we co-create / bring together Knowledge on Energy Poverty?

	Albania	Austria	Belgium	Bosnia & H.	Bulgaria	Croatia	Cyprus	Czech Rep.	Denmark	Estonia	Finland	France	Germany	Greece	Hungary	Iceland	Ireland	Italy	Latvia	Lithuania	Luxembourg	Malta	Montenegro	The Netherlands	Norway	Poland	Portugal	Romania	Serbia	Slovakia	Slovenia	Spain	Sweden	Switzerland	Turkey	United Kingdom	Macedonia	Israel			
Insufficient quality of the housing stock in general																										X															
Insufficient energy efficiency of a part of the housing stock			X																									X									X				
Cold homes during the winter period			X																																						
Excess heat in homes during the summer																												X													
Consumers' access to affordable energy sources			X		X							X						X														X				X					
Consumers' access to clean energy sources																																									
Outdoor air pollution in cities																										X															
Indoor air pollution caused by inadequate equipment																																									
Infrastructure issues												X														X															
Affordability of energy for the general population			X															X																				X			
Affordability of energy for specific groups of people																																						X			
Power cuts (disconnections for nonpayment)																																						X			
Protection of energy consumers																																						X			
Low incomes																													X												
Social exclusion																																						X			

EP-Pedia: How to contribute?

- **Country / Topic**

- Version: [date]
- Author: Name, affiliation
- Email: XXX
- My professional background is:

- **Perspective on [energy poverty related topic] in the policy debate**

- Please write a short text describing how the topic is viewed in the policy debate in your country. You can for example indicate:
 - How the problem is framed in the policy debate of your country
 - In which year the issue has been raised first (and by whom)
 - Whether it is formally related to energy poverty in the public debate in your country or not

- **Research perspective on [the topic in country xxx]**

- Briefly present the existing research on the topic in your country.

- **Key references**

- Indicate a few key references on these issues (if available).

The crucial question:

Who is the scientific community
that will help us filling our gaps?

It's YOU!
